

THE ECONOMIC IMPACT OF

# *Orlando Sanford* International Airport (SFB)

## *Aviation's* Benefit for Florida

Florida's economic well-being is intrinsically entwined with its vibrant airport system and its robust aviation industry. The aviation system in Florida allows the state to capitalize on an increasingly global marketplace. Aviation in Florida both sustains and leads economic growth and development. Airports in Florida are important economic engines, and support vital health, welfare, emergency, and safety-related services.

Florida's system of commercial service and general aviation airports are important to businesses throughout the state. Air travel is essential to tourism, Florida's number one industry. Protecting and investing in airports throughout Florida will support the aviation industry and the economic benefits described in this report. With continued support, Florida's dynamic aviation system will continue to provide a significant economic return in the years to come.

# Florida's Statewide Benefits from Aviation

Florida realizes significant annual economic benefits from aviation. The Florida Department of Transportation completed a comprehensive economic impact analysis to measure these benefits. Benefits measured in the FDOT study considered direct and indirect economic impacts and induced impacts that result from the multiplier effect. A summary of Florida's annual economic benefits from aviation follows:

Impact Category	Total Employment	Total Payroll	Total Output
Airports	158,861	\$7,752,561,600	\$28,793,238,700
Visitors Arriving by Air	753,353	\$19,315,252,400	\$59,178,047,200
Construction at Airports	25,321	\$1,041,077,200	\$2,858,791,800
Air Cargo	69,256	\$3,054,598,800	\$6,596,812,200
Aviation Education	6,977	\$201,195,400	\$573,188,000
Military Aviation	116,860	\$5,855,976,400	\$10,797,219,600
Aviation Businesses	35,986	\$1,255,264,800	\$5,321,292,400
Federal Aviation Administration	4,545	\$318,215,600	\$617,783,700
<b>Total Annual Economic Benefits</b>	<b>1,171,159</b>	<b>\$38,794,142,200</b>	<b>\$114,736,373,600</b>

Total annual economic output shown above represents more than 15 percent of Florida's gross state product (GSP). Many employers in Florida also rely on aviation to support their daily activities. Use of aviation helps to improve business efficiency. The FDOT study shows that, annually, by using all facets of air transportation, the efficiency of Florida businesses is increased by an estimated \$94.5 billion. This increased business efficiency is in addition to the total annual economic benefits noted above.

# Orlando Sanford International Airport

Orlando Sanford International Airport is located in Seminole County, 18 miles northeast of Orlando. The airport has four active runways, the longest of which is 9,600 feet. Facilities at the airport support a full range of commercial and general aviation aircraft, including a notable volume of flight training activity. The airport accommodates a number of domestic and international commercial airline flights.

Orlando Sanford International serves a mix of personal, leisure, and business-related travel. Nearly one million enplaning commercial passengers flow through the airport each year; approximately 67 percent of these enplanements are visitors whose spending helps to contribute to the airport's economic impact.

The Sanford Airport Authority is the operator of the Airport overall, but has a unique public-private venture with TBI Airport Management Group, who manages the International and Domestic Terminals under the oversight of the Airport Authority. The airport's tenants are focused on supporting domestic and international airline passenger service, professional pilot training, and air cargo service. The annual economic impact of Orlando Sanford International Airport is associated with direct impacts that come from tenants/businesses located at the airport and construction projects that are undertaken by the airport or by on-site businesses. Indirect impacts are associated with spending from visitors who arrive in the area via commercial and general aviation aircraft. The airport's total annual economic impact follows:
